

## Sample Index – Jason Begy

Bianchi, Marina and De Marchi, Neil., eds. “Economizing Mind, 1870-2015: When Economics and Psychology Met...Or Didn’t.” Annual Supplement to Volume 48, *History of Political Economy*. Duke University Press, 2016.

---

### A

#### Accounting practices

and cognitive theory, 18, 37, 39–40

as mental deliberation, 17–19, 40–41

and morality, 19, 21, 31–34 (*See also* moral algebra)

and the self, 24–26, 31

Victorian domestic, 18–19, 21, 25

Adams, Henry, 144–46

Allais, Maurice, 7, 243, 252–53

Almanacs, 22, 24–25

American consumption, 295–96, 306

American exceptionalism, 73

American identity, 141–43

American psyche, 5, 73, 143–44, 160

Anderson Jr., B. M., 87–88

Angell, Norman, 109–11

#### Arousal

and collative variables, 302–6

and pleasure, 299, 306–7

and satisfaction, 306

Scitovsky’s use of, 309–10

weakness of, 304

### B

Backwardness, 9–10, 227–28, 230–31

#### Bain, Alexander

decision making, theory of, 34–35

influence on Eliot, 35–36, 38

influence on Jevons, 2, 18, 35–36

mind, theories of, 32–33

and moral algebra, 33, 35, 36–40

Bankruptcy, 19, 31

Bartlett, Sir Frederic C.

- and Cambridge psychology, 47
- cultural diffusion work, 44–46, 62–65
- early career, 47, 50
- and evolution, 63
- and instincts, 50–51, 63
- as Rivers's protégé, 50
- social psychology of, 62–67

#### Behavior

- as accounting practice, 18
- conceptions of, 190, 192
- control of, 170–72, 177–78, 180
- experimentally controlling, 187–88
- human, 326, 329
- irrational, 114–17, 285–86, 317–18, 328–29
- Skinnerian control of, 183–84

#### Behavioral Economics Roundtable, 289

#### Behaviorism (psychology)

- and consumer choice theory, 175
- and consumer demand theory, 189–90
- and control, 170–72, 178
- critiques of, 93–95
- in economics (*See* economics, behaviorist)
- and functionalism, 179
- history of, 171, 174, 180
- and institutionalism, 170, 191–92
- and Knight, 136–38
- McDougall's influence, 94
- and Mitchell, 191
- and neoclassical economics, 174
- and operationism, 188
- and ordinalism, 171–72, 184–85
- Skinnerian, 182–84
- theoretical, 318–20, 330
- turn in economics, 172
- and Watson, 93–94, 178, 180–82
- Watson's attack on, 173–74

#### Bentham, Jeremy

- critiques of, 3, 121–22
- and the economic man, 160
- influence of, 77
- influence on Jevons, 3, 18, 36
- and marginal economists, 74–75
- Mitchell, influence on, 126

#### Berlyne, David. *See also* Collative variables

- arousal research, 302–3, 305
- aesthetics research, 303–5
- early research, 300–2
- exploration, studies of, 303, 310
- legacy, 305
- life of, 300n9
- motivation model, 300–5, 309
- Scitovsky, influence on, 11, 299, 305, 309
- Biel, William C., 207, 212
- Bernays, Edward L., 111–12
- Biological determinism, 52, 59, 60, 82, 151
- Bloomsbury group, 155–157, 159
- Bridgman, Percy, 171, 184–85, 187–89
- Brown, Bernice B., 205
- Business studies, 149–150

## C

- Caltech conference (1988), 271
- Cambridge psychological model, 3, 48, 51, 53–55, 65
- Camerer, Colin, 271n2, 281, 284–85
- Capital, human, 78–79
- Carnegie, Andrew, 115, 142–43
- Carver, Thomas N., 132
- Center for Advanced Study in the Behavioral Sciences (CASBS), 274, 276
- Chadwick, H. M., 62–63, 65
- Chapman, Robert L., 207
- Chenery, Hollis, 228–29, 231, 235–36
- Childs, Harwood L., 113–14
- Choice. *See also* behaviorism (psychology), theoretical; Cumulative effects (CE) model; Prospect theory; Rational choice theory
  - architects, 192
  - and control, 172
  - definition of, 316–17
  - equilibrium, 285, 310
  - human, 14, 74, 321–22, 326
  - hypothetical, 272, 278, 282–83, 290, 322
  - individual, 97, 297
  - influences on, 326
  - modeling, 220–22
  - preference, conflicts with, 307
  - probabilistic theory of, 263–64
  - rational theory of, 17–18, 72, 74–75, 89, 296
  - Sherwood on, 80–82

and theoretical behaviorism, 320–21  
Clark, John B., 115–16  
Clark, John M., 128–31, 190  
Cleveland, Alfred A., 79–80  
Cognitive dissonance, 233–34  
Cognitive psychology, 188–89, 281–82, 284, 327  
Collative variables, 302, 304–5, 310  
Comparative philology, 57  
Consciousness, 327  
Consumer choice theory, 175, 296  
Consumer cooperation, 112  
Consumer demand theory, 170–72, 184, 189–90  
Consumption  
    American, 295–96, 308  
    of comforts, 11  
    and economic development, 83–84  
    and rationality, 119  
    Victorian morality of, 21  
Consumption skills, 297, 308  
Copeland, Morris A., 92, 100, 131, 140, 191  
Coursey, Donald, 271n2, 279–81, 284n30  
Creel, George, 109–10  
Cultural diffusion, 44–46, 62–65  
Cumulative effects (CE) model, 11–12, 319–21

## D

Daily planners. *See* diaries  
Darwin, Charles, 34, 37, 51, 88, 152, 317–18  
Davenport, Herbert L., 132–3  
Davidson, Donald, 255  
Davidson-Suppes-Siegel experiment (DSS). *See also* Mosteller-Nogee experiment (MN)  
    background, 240, 253  
    critiques of, 262–63  
    design, 257–60  
    findings, 260–62  
    goal of, 256  
    impact, 241, 262–64  
    money, use in, 257  
    origins of, 255  
    psychological considerations, 256, 262, 265  
    timeline, 255–56  
Deception, 7, 14, 272, 279, 282–83, 290

Decision making, rational, 17, 34–35, 37  
Deduction, in economics, 74–77, 82, 119, 159  
DeGroot, Morris, 263–5  
Dewey, John N., 75, 105, 180, 187–88  
Diaries  
    and almanacs, 22  
    Bain’s use of, 34–35  
    for decision making, 2, 34  
    and domestic accounting, 21, 23, 25–26  
    Eliot’s use of, 26–28  
    Jevons’s use of, 28–31  
    and moral algebra, 34–35, 39  
    and moral economy, 24–26  
    and self-improvement, 23–24  
    varieties of, 23  
Diffusion, cultural, 45, 62–65  
Disciplinary history, 46–47  
Doob, Leonard, 112  
Douglas, Paul H., 100, 131

## E

Easterlin, Richard A., 176  
Economic development  
    Hirschman’s views on, 9–10, 229–233  
    as similar to RAND Systems Training Program, 236–37  
Economic pathology, 106  
Economic Science Association (ESA), 290  
Economics  
    aspirations to science, 73–74  
    behavioral (*See* economics, behavioral)  
    classical, 75  
    deductive methods, use of, 74, 76, 159  
    as deductive science, 77–78  
    early history of, 72–77  
    evolutionary, 56–57, 60  
    foundations in history, 16  
    as fundamental science, 80, 83  
    historical methods, use of, 74, 76  
    instinct psychology, applied to, 104–7  
    instinct theory, use of, 92–93  
    institutional, 75, 77  
    neoclassical (*See* neoclassical economics)  
    normative, 199

- Patten's perspectives on, 83–84
- research methods, 74–75
- Sherwood's perspectives on, 80–82
- subfields, division into, 148
- utilitarianism, basis in, 72
- Ward's psychological approach to, 78–79

Economics, behavioral

- and experimental economics, 14, 270–71, 273, 288, 290
- goals of, 192
- misunderstandings in, 177
- myth of, 177–78
- and “nudging,” 6, 192–93
- origins of, 172–3, 177, 273, 280, 289
- revival, 11, 271
- and subjective outcomes, 175–76

Economics, experimental

- and behavioral economics, 14, 270–71, 273, 288, 290
- methods, 13–14, 272, 290
- origins of, 290

Eddie, Lionel D., 87

Edwards, Ward, 253

Eliot, George

- Bain, influence of, 35–36
- Middlemarch*, 2, 35–36, 38–39
- Spinoza, influence of, 32
- use of diaries, 26–28

Estes, William, 275–76

Evans, Mary Anne. *See* Eliot, George

Evolutionary economics, 56–57, 60

Expected utility theory. *See also* Davidson-Suppes-Siegel experiment (DSS); Mosteller-Nogee experiment (MN)

- assumptions of, 240
- decision makers, 248, 250–51, 256, 262
- critiques of, 251, 330
- debates over, 243, 252
- decline of, 264
- failures, 330
- and gambling, 243, 250
- history of, 252–53
- and measuring utility, 242–3, 248, 251
- model decision makers, 242–43, 248, 250–51
- rise of, 252–53
- subjective, 255n15, 257

testing, 6–7, 239, 263 (*See also* Davidson-Suppes-Siegel experiment; Mosteller-Nogee experiment (MN))  
validation of, 240  
von Neumann and Morgenstern's axioms, 242–43  
Experimental Economics and Psychology conference, 271  
Explicit maximizers, 318  
Exploratory behavior, 301–2

## F

Fast-slow distinction, 328  
Festinger, Leon, 10, 233–35  
Fixed-ratio schedules, 317  
Florence, Alix S., 155–57  
Fouraker, Lawrence E., 274–79  
Framing, 327–28  
Franklin, Benjamin, 2, 22, 33–34. *See also* Moral algebra  
Freud, Sigmund. *See also* psychoanalysis  
and art, 158–59  
Bloomsbury group, influence on, 156–57  
Hirschman's critique of, 235  
Lippmann, influence on, 152–55  
Tugwell on, 100  
Friedman, Milton  
background, 244  
on EUT, 243  
and Mosteller-Nogee experiment (MN), 245  
Thurstone, critique of, 242  
Fry, Roger, 157–59  
Functionalist psychology, 179–81, 180n5, 191n19, 193

## G

Gambling, 240  
Game simulation, 206, 213–16  
Game theory, 207n8, 254, 284–85  
*Games and Decisions*, 262  
Games and human interaction, 79–80  
Geisler, Murray, 201, 203–4  
Giddings, Franklin H., 77–78, 142  
Gigerenzer, Gerd, 18, 34, 41, 289n45  
Great Depression, The, 146, 148  
Great War, The, 101–2, 106, 109, 114, 116–17

Grether, David, 271–72, 277n14, 282n24  
Grote, the Reverend John, 47, 52–53, 55, 57  
Group learning, 208–12  
Group stress, 211–12

## H

Habit, theories of

    Marshall, 49, 51, 53

    McDougall, 59

    Veblen, 4, 51–52, 58–60, 98

Hadley, Arthur T., 86

Hall, G. Stanley, 150–51

Hobbes, Thomas, 72, 74, 77, 124

Hobson, John R., 97–98

Hapgood, Norman, 117–18

Happiness, 308–9

Hedonic value, 302–3, 305

Hedonism

    and collative variables, 304, 309

    concept, defense of, 132–34

    critiques of, 121–22, 300n7

    and evolution, 77

    as motivation, 97

Hirschman, Albert

    aggregative analysis, 228

    on backwardness, 227, 230–31

    career, 227–28

    on economic development, 9–10, 229–33

    Festinger, influence of, 10 233–34

    on Freud, 235

    goals of, 234

    on investing, 232

    Mowrer, influence of, 10, 233

    on productive investment, 231–32

    and RAND, 236–37

    reactions to, 227, 235–36

    Rosenberg, influence of, 234–35

    structural planning, critiques of, 226, 228

Human capital, 78–79

Human-machine interaction, 208

Human nervous system, 48–49

Huxley, Thomas H., 32, 88

Hypothetical choices, 278, 282, 290, 322

I

Implementation rationality, 8, 200–1, 203–6, 211, 218

Inducement mechanisms, 232, 235

Induction, 13, 74–75, 159, 214

Information processing, 208–9

Instinct psychology

Bartlett, 4, 50–51, 63

Clark, 129–30

Cleveland, 79

failures of, 131–32

James, 89

Link, 91–92

Marshall, 4, 53

McDougall, 49–50, 52, 54, 59, 89–90

Mitchell, 123–24, 191

Parker, 105–6

Rivers, 4, 49–51, 67

Taussig, 126–28

Tead, 149

Veblen, 4, 51–52, 58–61, 67, 96

Wallas, 93, 123

Instincts

and behaviorism, 94–95

conflicting, 50–51, 63, 67

perversion of, 106

social, 66

Institutionalism

American, 160, 170–71

and behavioral control, 190–93

behaviorist, 191–92

critique of ordinalism, 178

defense of, 140

and empiricism, 77

failure of, 131

history of, 75, 100, 147

and marginalism, 118

and the New Deal, 75

and psychic conditions, 117

and social control, 139

and social psychology, 118

Institutions, social, 67, 81, 84, 98, 120

Instrumental learning, 318  
Intellectual revolution (1880s), 57  
*Introduction to Social Psychology*, 49, 51n7, 52, 67, 90  
Irrational behavior, 114–17, 285–86, 317–18, 328–29

## J

Jackson, Hughlings, 3, 48  
James, William  
    influence on McDougall, 52  
    influence on Veblen, 4, 51  
    instincts, theory of, 89, 126  
    psychology, influence on, 74–76  
Jevons, William Stanley  
    Bain, influence of, 2, 35–36  
    diaries, use of, 2, 28–31  
    equivocation of reason and emotion, 38–40  
    life history, 28, 30  
    and moral algebra, 2, 36–37  
    on pleasure and pain, 36–37, 40  
    *The Theory of Political Economy*, 18  
    as Victorian prude, 160  
Johnson, Alvin, 87  
*Joyless Economy: The Psychology of Human Satisfaction*  
    American consumption, 295–96  
    Berlyne, influence of, 299, 305  
    goals of, 297  
    and Plato, 298–99  
    rational choice, critique of, 296  
    reception, 10–11, 13, 295–97, 311

## K

Kagel, John, 271n2, 281, 288, 291  
Kahneman, Daniel  
    as experimental economist, 8, 12  
    influence of, 271  
    prospect theory, 14, 262, 326–27  
Karr, Herbert, 205  
Kennedy, John L., 207–8, 212  
Keynes, John Maynard  
    education, early, 155  
    Freud, influence of, 155, 157

on happiness, 309n26  
and psychoanalysis, 151  
Knight, Frank, 100, 136–40, 148, 151

## L

Labor market, 101, 103, 108  
Labor movement, 102  
Lamarck, Jean-Baptiste, 90  
Lapouge, Vacher de, 57–58  
Layard, Richard, 174, 176–77  
Leisure class, 61  
Letts, John, 22  
Lewes, George Henry, 23, 28, 32, 36  
Link, Henry C., 91–92  
Lippmann, Walter, 103, 111, 151–54  
Logistics, 199, 203  
LSL (RAND Logistics Systems Laboratory)  
    board games by, 214, 216n14  
    economists in, 214, 219  
    findings, overall, 218–20, 222
